Why miss a decibel of “I like your style”?

Siemens Life™.
Sense of hearing meets sense of style.

The stylish hearing solution that helps you enjoy every decibel of life.
www.usa.siemens.com/life

Answers for life. **SIEMENS**

A fascinating viewpoint:
48 decibels

Style is all about a polished appearance and flawless performance. From its graceful contours to its intuitive technology, Siemens Life is designed to suit you in every way. Small and sleek, yet smart and sophisticated, it not only looks elegant, it also performs beautifully. Discover better sound, without compromising your style.

Invisible meets beautiful.

Life is about your personal style. From its imperceptible size and chic design to its automatic handling, it is created to suit you.

Available only in small.

If you're looking for a stylish hearing solution, then Life's small size will fit you perfectly. Not only does the instrument hide comfortably behind your ear, its ultra-slender tube practically disappears. And if someone manages to catch a glimpse, its elegant and timeless design is sure to please.

No one will notice. Not even you.

With Life, discretion is not just about size, but also performance. It automatically adjusts to your environment and learns your hearing preferences. The result: No manual volume or program changes. In case you want to have more control, the stylish ePen® and ProPocket™ remote controls let you do so inconspicuously.

ProPocket™ and ePen® remote controls allow you to adjust your Life instruments.

Exactly my style:
72 decibels

Fast meets flexible.

With its unique open fitting design, Life accommodates even the smallest ear canals. Quick, easy, and reliable, it's the ultimate ready-to-wear hearing solution.

Be ready in no time.

Why wait to enjoy great hearing? Life's open fitting concept means you can be fit in the first visit to your Audiologist or Hearing Care Professional.

Effortless handling.

The ultra thin LifeTube offers you outstanding hearing performance with very little maintenance. That's because it's easy to clean and inexpensive to replace. So you have maximum comfort with minimum fuss.

Now you see it,
now you don't:
62 decibels

Freedom meets finesse.

Exchangeable housing

If your style preferences change, your Hearing Care Professional can easily switch Life's housing.

Push button

Allows you to change programs and turn your instruments on and off comfortably.

LifeTube

Ultra thin and transparent, the inconspicuous tubing gently hugs your ear for the most comfortable fit.

Battery door switch

Turns off the instrument while holding the batteries in place.

Life Tip

Fits comfortably in the ear canal and is easy to clean and exchange.

Technology meets tomorrow.

Life is part of a new generation of instruments from Siemens that are equipped with our latest BestSound™ Technology innovations.

SpeechFocus™

Some situations, like driving a car and listening to someone talking from the back seat can be challenging. SpeechFocus acts like an acoustic rear view mirror that works automatically to improve your understanding of speech coming from behind by up to 40%.

SoundLearning® 2.0

With SoundLearning 2.0, enjoy the freedom of a completely automated and individualized hearing experience whether you're listening in quiet, in noise, or enjoying music. You'll have less follow-up fittings and the confidence of knowing you're hearing exactly as you prefer, no matter where you are.

FeedbackStopper™

It's hard to be stylish if your hearing aids are whistling. FeedbackStopper predicts feedback before it happens and reduces or eliminates it fast. Even in the most feedback-prone situations, you won't worry about embarrassing whistling.

Tek® wireless enhancement.

Make phone calls more personal. Hear music that sounds more alive. Tek connects wirelessly to your favorite audio devices through a dedicated remote control, Tek Connect.
