

What's more relaxing than a day out with friends? Talking, laughing, enjoying one another's company are all possible with the right power. With the intelligent power of Siemens Nitro® BTE (Behind-the-Ear) and custom instruments, also known as ITE or (In-the-Ear), you don't have to miss a decibel of life. Enjoy the ultimate Super Power hearing aids that overcome previous limitations.

Your Audiologist or Hearing Care Provider:

The information in this document contains general descriptions of the technical options available, which do not always have to be present in individual cases and are subject to change without prior notice. The required features should therefore be specified in each individual case at the time of conclusion of the respective contract.

Hearing instruments help many people hear better, but no hearing instrument can solve every hearing problem nor restore normal hearing.

Technology

Why miss a decibel
of powerful advice?

New!

Nitro custom
instruments
for maximal
hearing
comfort.

Siemens Nitro®.
Empowers, connects,
and understands you.

The super power instruments that let
you enjoy every decibel of life again.

Answers for life. **SIEMENS**

Man's best friends:
75 decibels

The power of Nitro.

Siemens Nitro gives you back power, and much more. Designed to enrich the lives of people with severe hearing loss, it empowers you, connects you, and accompanies you on your daily adventures. Discover and enjoy every precious decibel of life, every day. From the buzz of Mondays at the office to the harmony of a peaceful Sunday at the park.

Nitro has an amazing amount of powerful technology such as feedback cancellation, advanced speech and noise management reduction, and much more. The latest Nitro hearing aids automatically eliminate whistling. Powerful Nitro automatically adapts to your environment and listening preferences to bring you a more effortless hearing experience.

Speech intelligibility and optimum comfort are essential. Having a conversation on a busy street should be easy. With an advanced adaptive directional microphone system, Nitro BTE (Behind-the-Ear) provides better speech understanding even in high noise environments, while SoundSmoothing® softens harsh sounds.

Nitro BTE provides physical and hearing comfort.

The power of connectivity.

Information today is mobile, always on, and instantaneous. Connect your Nitro BTE hearing aids to your phone, TV, and other gadgets using Siemens Tek®. Then stay informed, entertained, and in touch.

The handy Tek® Connect remote slips easily into a pocket or purse for wireless listening on the go. It works with almost all cell phones, Bluetooth® wireless technology-enabled landline phones, TVs, and audio players.

Make that call, hear that new song, indulge in your favorite film. Tek Connect makes it all possible. Wirelessly. Seamlessly. Effortlessly.

Tek gives you wireless control of all your audio devices.

The power of discretion.

Looking for a discreet hearing solution? Nitro custom hearing aids pack as much power as possible into attractive and inconspicuous instruments. So the only thing people notice is that you're hearing better.

New Nitro custom hearing aids offer the ultimate in hearing power with the most advanced feature-rich options. For perfectly tailored listening comfort, all Nitro custom instruments are based on BestSound™ Technology the new standard in the field of hearing solutions. Nitro custom instruments offer these revolutionary features:

FeedbackStopper™
Automatically eliminates whistling or feedback before it starts.

SoundLearning® 2.0*
Automatically adapts to your volume and sound preferences, for each individual listening environment.

*Available for Nitro 701 custom (ITC and ITE)

The power of choice.
